

**IN THE SPECIFICATION**

Please replace the paragraph beginning at page 11, line 13, with the following amended paragraph:

-- British Patent Publication No. ~~2,251,828~~ 2,251,828 published on July 22, 1992 to Mohammed A. Moghal, titled "Tool Trolley And Combined Seat," describes a roll around folding seat with folding lateral tool carrying extensions. The device is not truly a creeper, in that a person cannot lie down on the device in a supine position due to the seat structure and the relatively short length of the device. No means for extending the length of the device is disclosed for the Moghal tool trolley, nor is any lighting disclosed.--
